INDIAN INSTITUTE OF TECHNOLOGY, MANDI

National Post Doctoral Fellowship (N-PDF) Interaction Session with Dean (SRIC)

Venue: Dean (SRIC) Office, 4th Floor, A-9 Building, North Campus

Date: 18 June 2026 (Thursday)

An interaction meeting was conducted between the National Post Doctoral Fellowship (NPDF) fellows and the Dean, Sponsored Research and Industrial Consultancy (SRIC), to provide an overview of the process flow and functioning of the various sections under the Deanery of SRIC. The session aimed to familiarize the fellows with the administrative procedures, research support services, and operational framework of the SRIC office. The meeting also included an interactive doubt-clearing session, during which the fellows addressed their queries related to SRIC processes and fellowship administration. In addition, the Dean encouraged the NPDF fellows to actively participate in the upcoming National Webinar Contest and invited them to contribute as members of the organising and executive team, promoting greater engagement in institutional research and outreach activities.
